CALDBECK, MACGREGOR & Co., WINE AND SPIRIT MERCHANTS, Sole Agents

The Official Journal of France states :-"93,273 Hectos of Brandy were distilled from wine, September, 1896 to 1897. "2,353,129 Hectors of Brandy (?) were exported and consumed in France." Viz., the exports and consumption of all kinds of Brandy were more than 25 times the

quantity of real Brandy distilled. It follows that a very small proportion of Brandy exported from France is made from Wine. We have for many years used a blend of FRENCH GRAPE BRANDY with WINE BRANDY from other countries. This enables us to sell a PURE WINE BRANDY at a moderate cost, and by judicious blending the characteristics of the French Spirt are retained. Our spendial blends are :-Per Dozen.

THE NEUTRALITY QUESTION.

The Government Gazitte of Saturday last contains the full text of the Rules annexed 1871, defining, more fully than had ever been done before, the duties of neutral governments, in time of war, secondly, the Her Majesty's subjects during the existence "HAYTOR "-Newly erected 5 roomed of hostilities between Foreign states with Her Majesty's Proclamation of Neutrality in respect of the war now unhappily waging between Spain and the United States. This Proclamation sets out the Washington Rules and the provisions of the Imperial Act and strictly commands and charges all Her Majesty's loving subjects to abstain from violating or contravening either the Laws and Statutes of the Realm or the Law of Nations as to neutrals " as they will an-

> swer to the contrary at their peril." Now the first thing that strikes one in reading this proclamation, the Rules and the Act, is that the Act was passed before the Rules were accepted in England and does not quite cover all the ground embraced within the purview of the Rules. These latter affect the Government alone and define its duties towards the warring powers. The Act purports to regulate the conduct of the individual subjects of Her Majesty and prescribe what they may or may not do, and to impose penalties.

The duties of the Government are defined as follows:-A Neutral Government is bound-

First,-To use due diligence to prevent the fitting-out, arming, or equipping, within its jurisdiction, of any versel which it has reason able ground to believe is intended to craise to carry on war against a Power with which it is at peace; and also to use like diligence grevent the departure from its jurisdiction of a vessel intended to cruise or carry on war as above, such vessel having been specially diction, to warlike use.

belilgerent to make use of its ports or waters as the base of naval operations against the other, or for the purpose of the renewal or augments. tion of military supplies of arms, or the recruitment of men Thirdly.-To exercise due diligence in its own

ports and waters, and, as to all persons within its jurisdiction, to prevent any violation of the foregoing obligations and duties. The first two of these regulations affect the Government in its executive capacity. The third prescribes the making and en-

forcing of laws binding on its own subjects the better to enable it to prevent any violations of the obligations imposed by the previous rules. Now it does not seem to us that the Act

of 1870 does provide for all possible or even probable cases. We do not see anything in the act to prevent ship chandlers and store keepers providing the Hug McCullock or the Zafiro, lying our Chinese waters and wholly without the territorial Umits of the Colony, with coals or provisions, nor can we find any authority in the act for the recent interference of the police with launches and boats proceeding with coals or stores to the Zafiro. Every British subject is at liberty to

trade fully and freely with America, and with Spain, in arms, ammunition, coals, provisions, contraband of war of every description, subject only to the risk of seizure and condemnation by the other the island was a subject of frequent" disbelligerent. Such trade is not punishable in any way by English law, but only by obstacle was always Mount Davis and the the Law of Nations and our Govern- great difficulty and expense of construcwill not interfere in any way with the operation of that internation- is comparatively easy and inexpenal law, nor afford a British subject siye, and well within the resources any protection if captured and condemned of the government unaided. the blockade of Manila and to run goods putting too great a strain on the Treasury. seizure and condemnation by the Amerito sell arms and ammunition to America foundation was laid there. Then both ends subject only to the risk of seizure in transit by the Spanish marine,

What is forbidden by the Act of Parliament and made liable to penalty is-1st-Any British subject inside

outside Her Majesty's dominions entering into the naval or military service of either Spain or America and any person, British subject or foreigner, endeavouring to induce others, within Her Majesty's dominions to enter such service.

We call the special attention of the Police to the words in clauses 5 and 6 which we have underlined "within Her Majesty's dominions" and suggest for their consideration that the Zafire was not on Saturday within Her Majesty's dominions.

NOTES AND COMMENTS.

Mr. ORMSBY's report on the work of the Department over which he presides in succession to the late lamented Cooper is very clear, very full and very creditable to him and to his staff. The public spent last year on works within the colony to the Washington Treaty of the 8th May, 6661,969.40 of which 8207,174.70 was of the character of ordinary wear and tear and is in its nature annually recurrent. It covers an enormous number of items, principal provisions of the Imperial Act of Buildings, Telegraphs, Telephones, Ceme-August, 1870, regulating the conduct of teries, Praya wall and Piers, Lighthouse. Foreshores, Roads and Bridges, in and out of Victoria, Waterworks, Sewers, which Her Majesty is at peace, and lastly | Lighting of the City, Villages, Recreation Grounds. Clock Tower &c. &c. &c. and with reference to this portion of the work of the Department we have only one or two remarks to make.

> We suggest that the effective lighting of the clock tower might be taken in hand at once. It will be some time yet before the tower can be taken down and re-erected on the new Praya front. In the meantime either save the money spent on the present system of lighting the face of the clockis simply money thrown away at present

> -or light it effectively and at once. We should like to see the Government Telephone Exchange thrown open for the benefit of the public. Mr. ORMERY with his strong proclivity for satisfying any reasonable public demand could easily see his way to this, without any injury to the efficiency of the Government service,

> and it would be useful in many ways. There are lot of lanes in the city and in the best parts of it that want relaying and repaving very badly.

Does not the state of the Kowloon water consumption shew Mr. Orksby clearly, what a terrible waste of water is involved In the system in force in Victoria of putting water into every house and every floor in Chinatown. In Kowloon all the Chinese supplies are from the public adspied, in whole or in part, within such juris. hydrants. All other supplies are metered. The average consumption per head is only Secondly.-Not to permit or suffer sither 6.04 gallons and there are no complaints of insufficient supplies. The average consumption in Victoria is 13 gailons. Of because of the house to house supply.

> On the Public Works of an extraordinary nature nonrecurrent, there has been expended 8453,894.70, of which 8454,995.25 was charged to general reconnection with these we would only suggest to Mr. Oxxser a diligent search for fined \$10, in default one month. more old storm water drains like the one in Winglok street. Thanks to the stupidity of his predecessors in office there are many more of them closed up, covered in and lost sight of which are still receiving contributions from house drains for which there is no exit. We might usefully strike one man off general duty for the sole purpose of hunting up in the volumes of old plans the sites of these long forgotten acess pools.

We have only commendation for the rest of the report and only one further suggestion for the D. P. The public subscribed their money for the construction of the Jubilee Road round Mount Davis and for nothing else. The formation of a road all round cussion for many years, and the main ting that section. The rest of the road for carrying contraband. Any British scription was to enable the Public Works subject is at liberty to endeavour to break | Department to tackle Mt. Davis without In to the Philippines. The only penalty is At first when the Jubilee Road was proposed and accepted the Mt. Davis end entire abandonment apparently of the other extremity. The jubilee Committee had better look to this.

The British flag was holsted at Wel-halwei on the 24th instant, Queen's Birthday. One hundred men were landed from H.M.S. Narcissus and fifty from the Chinese warship. Foochi and, headed by the band of the former ship, marched up to the west fort on Liu-Kung-tau where they formed a square in front of the flagstaff, the Commissioners, Consul Hopkins, Captaln Kinghall, Taotai Yen and Captain Lien being in the centre. Captain Kinghall then addressed the people present and read his authority for proclaiming the lease of Wei-hai-wei and a declaration that the place was then British property. The British flag was hoisted at 1.30 p.m., the band playing the National Anthem meanwhile, Three cheers were given for the Queen and one for the Emperor of China. The British flag was hoisted on the mainland at the same time.

May 20th-It is sumoured that trouble is imminent between Eugland and Russia. Tho Plane has been sent down to Hollo. A Spanish torpedo boat is said to have damaged three American craisers and escaped. It is reported . that 5000 men from Amer'ca are on the way here. including 2,500 Texas Rangers and cawboys, "Shoot-on-sight Johanles." The American Admiral said that three 45-ton Krupp guns with a range of 15 miles, could have suck his whole floot. The Spinlards had them at C. ficzo but the breeches were so rusted that they could not be opened. One shell from them, Admiral Dewor says, would have disabled and put any ship he had out of action. The guns on Lunets, are of 8 in and about 20 tons or a little over.

gist .-- Absolutely nothing to record, 22nd .- No news. A paper chess in the morning at the 6 o'clock. The Spaniards are putsing sand-bags on top of the wall of the forts and are making other additions, contrary to their agreement. If the Yankees are keeping their eyes open and see this it may bring about a bombardment. At-4 p.m. a shot was fired, said to have been at fort Malate, just as a gentle reminder to the Spanisrds that the Yanks had their eye on them. The shot is said to have gone over the fort and no more were fired.

23td .- Swift arrived at 11 a.m. with 144 bags of mails. The Contul was on board all the afternoon. The letters will be delivered tomorrow morning. The cable is 'cut between Manila and Iloilo. News has reached the Americans somehow that wires bad come here wie Labuan to the effect that four Spanish fronclads had left for here on the 12th accompanied by cruisers and torpedo bosts and the years bere Is that the American squidron is hard up for ammunition and that if the Spanishes were to get in time there might be another Manila Bay fight-but " mooth the liker wiv."

It is confirmed that the Ilollo cable has been cut, Her mail matter was badly wanted. The Pique comes up from Ilollo to-morrow 25th. Spanish gunboat Leyte, about same size as the Callac, which was captured the other day tried to sneak out of the Pampanga viver with despatches for Itolio and was nabbed by the Yankees at about 5 am. There are rumours of ships and men being on the way here from Spain, with four belted cruisers some smaller ships and transports with 10,000 men and also coal ships. The Spanishe are busy making sand bag defences all along the shore, improving forts, mounting guns, &c. but I shouldn't think they were much good as they would be smashed up in a few minutes by the American big guns. minutes without doing any harm. The whole question now seems to ha this-how many American froops are co and how soon they will be here and who when they do come the natives will be for the or for the Spanisrds? I believe myself they be helf and half until one side gets the advantage and then all the datives will go over to that side till the other is completely smanhed and then the winning side will have a devil of a time with their native allies who will I believe be impatient of all restraint, will consider that they have fought for and gilaed their liberty and to the mass of them liberty means licence Fearful scenes will be enseted here before very long I sm quite sure If the Americans hombard and land men.

HONGKONG'S NEUTRALITY.

U.S. Consul Wildmen and a party of felends were out for a launch trip in Kowloon Bay on Sunday evening and despite their protestations that they had nothing contraband aboard their vessel was boarded by police who searched her fore and aft. On Saturday evening, a lighter and a couple of janks belonging to the compradore Atea were solard, together with the steam launch towing them out to the Bay, The total walne of the stores seized amounts to shout \$5,000. Hefore the Zofire left Manile, the officers of the U.S. cruisers commissioned one or two of their number to bring off some of the luxuries of which they have been deprived in Philippine waters. There are merely personal effects of the American officers. It is said that the seizure alikely to exure much irritation, to much to that the base of supplies of this nature will probably be transfered from Hongkong to Amoy or some other coast port. The U.S. squadron has spent over one and s-half millions of dollars in Hongkong; and, if nothing contrahand is being smuggled on hoard the despatch vessels It will be a ply if this big trade is lost to us On Sunday afternoon the police affect, and detained in the basin at Tsimshatunf, three cargo boats with provisions, the property of the Man Loong firm; a laurch, belonging to the Ching On fi m. ARREST OF GUNPOWDER AT

YOKOHAMA. The Jopan Advertiser thates that the P.M. Steamship Company's steemer Astec, which entered Yokohama under the Hawallan fing on the 12th, had twenty-one cause of gunrowder to be sent to the gun-best Petest, one of the United States Eastern Squadron. Official application for landing them was made by the United States Naval Hospital to the Customs. After a conference between the Customs, the Kencho, and Yokosuka Naval Station, the goods were ordered to be sent to the Makamura ganpowder macesine under police care. It is the usual custoin for the warships of Great Britain and America to land their ammunition at Yekohama and receive it whenever called for. The Asiac pursued the usual course and had no intention of evading the law. It is said that this is the first arrest of contraband of war at Yokohama.
